**Special environment**
- OR environment
- X-ray environment

---

**SURFACES**

**What**
- Surfaces exposed to body fluids

**How**
- Vacuuming
- Wiping

**When**
- After each patient
- After each procedure

**WHO**
- Operator

---

**INSTRUMENTS**

**What**
- Prosthodontic instruments
- Accessory devices

**How**
- Manual and automatic cleaning systems

**When**
- After each procedure
- As needed

**WHO**
- Operator

---

**ESPECIAL ENVIRONMENT / MISCELLANEOUS**

**WHAT**
- OR environment
- X-ray environment

**How**
- Ultrasonic cleaning
- Peroxide plasma
- Steam sterilization

**WHO**
- Operator

---

**WASTE**

**What**
- Sharps and needles
- Non-sharps and non-needles

**How**
- Disposal

**WHO**
- Operator

---

**APPENDIX**

**WHAT**
- Antimicrobial efficacy
- Microbial evaluation

**How**
- In vitro testing

**WHO**
- Operator

---

**APPENDIX**

**WHAT**
- Adhesives
- Reinforcement

**How**
- Application

**WHO**
- Operator

---

**APPENDIX**

**WHAT**
- Sterilization

**How**
- Autoclave sterilization
- Dry heat sterilization
- Ethylene oxide sterilization
