## Bite Registration Waxes

### 9. Physical and Chemical Properties

Appearance:	solid
Colour:	yellow, pink, green
Odour:	lightly/characteristic
Density:	approx. 0,9 g / cm <sup>3</sup>
Water solubility:	insoluble
Flash point:	above 230 °C

### 10. Stability and Reactivity

Thermal decomposition:	None when used according to determinations
Hazardous decomposition products:	None when used according to determinations
Hazardous reactions:	None when used according to determinations

### 11. Toxicological Information

Compatibility of skin and mucous membranes:	good
Irritations:	not known so far
Lethal dose:	> 15.000 mg / kg (value borrowed from literature)

### 12. Ecological Information

Aquatic toxicity class:	0 ( self classification )
-------------------------	---------------------------

### 13. Disposal Considerations

According to current local regulations of responsible disposal authorities.

### 14. Transport Information

No regulations for transport of the products mentioned.

### 15. Regulatory Information

No dangerous substance or compound to our stand of knowledge according to regulations of dangerous goods or the corresponding guidelines of the European Community.

### 16. Other Information

The statements of this Safety Data Sheet correlate to our stand of knowledge and experiences at the date stated below. Flawlessness, reliability and completeness is not warranted by the publisher.
